

R. TRENT IN PRE-EASTER SERMON HERE

HEAR INDIANAPOLIS PAS-
TOR AT PRESBYTERIAN
CHURCH

IN POTENCE OF PRAYER"

Union Service This Evening
To Be Held In Methodist
Church

Presbyterian church was well
Monday evening for the second
special pre-Easter services be-
conducted by the Greencastle
this week. The speaker for
evening was Dr. L. C. Trent, pas-
tor of the Woodruff Place Baptist
church of Indianapolis. Dr. Trent
on the theme, "The Omnipot-
ence of Prayer," and based his mes-
sage on Jesus' words, "And all
things whatsoever ye shall ask in
prayer, believing, ye shall receive."

Dr. Trent believed that prayer was
an inevitable, that it would al-
ways get its answer. "He insisted that
these words of Jesus literally
mean that Jesus really meant them.
If you ask when you are really
praying, you will get it." The speaker
gave three implications of the
message of these words of Jesus, and
the message around these impli-

pointed out the fact that, first,
prayer to be omnipotent must be
out of a Christ-like experience.
When Jesus uttered these words,
he was speaking out of his own
experience. Our world is greatly in
need of a Christ-like experience.
The second place, prayer to be
omnipotent, must be prayer which
is out of a Christ-like truth in
life. There was never an instant in
the life of Jesus when he was not
in God. Jesus never doubted the
reality of God as his Father. He
lived in a God who was able to
answer prayer. He believed in a
God who was willing to answer pray-
ers. He believed in a God who was ac-
tually answering prayer. These three
are necessary before prayer
can become really effective and all-
powerful. The third implication was
before prayer can be omnipotent
it must come out of a Christ-like life.
Life was in perfect harmony
with God. When we achieve a Christ-
character, when we reach the place
where God can trust us with
power, then for us prayer will
be omnipotent. In his closing
Dr. Trent made a strong ap-
peal for a more spiritual Church,
for the Church to increase its ef-
fect to capture the young life of
this era for Christ.

service Tuesday evening at
will be in the Methodist church,
B. H. Bruner, pastor of the
Methodist church will speak on the
topic, "Great Questions of The Last
Days."

ORIN MOORE FACES AN AFFIDAVIT

ALLEGED TO HAVE DRAWN DEADLY WEAPONS ON LEMUEL SURBER

P. Orin Moore, Greencastle town-
ship man, is charged with drawing
deadly weapons on Lemuel Surber, 21
years old, south College avenue, in an
affidavit filed in the Putnam circuit
court by Surber.

Moore was arrested Tuesday fore-
noon by Sheriff Alva Bryan and
pleaded not guilty when arraigned be-
fore Judge James P. Hughes. Bond
was fixed at \$200 pending trial April 6.

Moore, who recently was sued for
divorce by his wife, is alleged to have
threatened Surber with a knife and
shotgun at the Moore home Monday.
It was reported Tuesday morning
that Surber had gone to the Moore
home after a stove which he had pur-
chased at a sale of household goods
last Friday, but that Moore refused
to let him have it. When Surber in-
sisted on having the stove, it was al-
leged that Moore first drew a knife
and threatened Surber. When Surber
is said to have started looking for a
weapon of his own it is alleged that
Moore secured a shotgun and used
this to force Surber off the premises.

Surber came to Greencastle and
Prosecutor Marshall Abrams prepared
and filed the affidavit charging Moore
with drawing deadly weapons.

NEW SLEEPING DRUG BEFORE CONVENTION

CONSIDERED BY CHEMISTS AT- TENDING MEETING OF U. S. CHEMICAL SOCIETY

SUCCESS APPEARS ASSURED

Chemists Hear Meredith Nicholson,
Indiana Author, At Banquet
Meeting Monday Night

INDIANAPOLIS, March 31, (UP)—
Report of a new sleeping drug sooth-
ing and non-injurious, was being con-
sidered here today by chemists attend-
ing the 81st convention of the Ameri-
can Chemical Society. The announce-
ment was one of the products of the
opening day of the conference, which
will continue until Friday.

Research on the new drug is being
made by H. A. Shonlee, of the Eli Lilly
and company, experimental labora-
tories, Indianapolis. Shonlee said the
drug had been used successfully in
more than 1,000 operations, and pre-
dicted that it will be developed until
it will be strong enough for the most
serious operations.

At present the potion is termed
"amyl ethyl Barbituric acid." Chemi-
sts believe its greatest value lies in
its quick acting tendency and lack of
after-effect on the patient.

Meredith Nicholson, Indiana author,
greeted the chemists at a dinner last
night, following opening day routine
and a convention council conference.

A Standard Oil company plane was
to arrive this morning bringing chemi-
sts from the company's Whiting, Ind.,
plant. General meetings, followed by
divisional sessions, were on the pro-
gram for the day.

Power of poisonous gases in war is
over-emphasized, Major General
Henry L. Gilchrist said in a discus-
sion of recent experiments. Other
weapons of war are more deadly, Gil-
christ revealed, pointing out that gas
victims have a 12 to one better chance
of recovering than men wounded by
bullets.

First experiments with talking pic-
tures were made in 1875, Dr. S. E.
Sheppard, assistant director of the
Eastman Kodak company at Roches-
ter, N. Y., said in a lecture on photo-
graphy. He traced the industry from
its beginning.

THE WEATHER
Cloudy; probably rain in south and
rain or snow in northeast portion to-
night and Wednesday; not much
change in temperature.

DEPAUW CHAPEL

The DePauw university choir under
the direction of Dean R. G. Mc-
Cutchan, presented a short twenty-
minute concert of choral music before
the DePauw university chapel Tues-
day morning. The program was one
of English origin. All the composers
with the exception of Piusini were
British and this composer was a
teacher of voice in London.

The selections were choice old Eng-
lish glees and part songs. The pro-
gram being as follows:

Hail Smiling Morn—Spofforth.
A Spring Song—Piusini.
Who Shall Have My Lady Fair—
Pearsall.
Dainty Fine Sweet Nymphs De-
lightful—Morley.
Come Again! Sweet Love Doth Now
Invite—Elizabethan song.
Humpty Dumpty—Caldecott.

The spontaneous applause following
each number was a keynote to the
fine work that the DePauw choirs un-
der Dean McCutchan have accom-
plished.

Wednesday's chapel will be an East-
er service with special Easter music
furnished by the School of Music.
President Oxnam will speak.

TO GET BACK SALARY

SOUTH BEND, Ind., March 31,
(UP)—The \$15,000 salary which Rob-
ert McKnight, Penn township assess-
or for 14 years, didn't know he had
coming to him, will be paid in full
next year with six per cent interest
from March 16, 1931, he has been in-
formed by the board of county com-
missioners.

McKnight's successor learned by ac-
cident that the job had been paying
only about half as much as legally re-
quired, whereupon McKnight hired an
attorney, and investigated his rights.
No money was available to pay the
former office-holder, but he expressed
willingness to abide by the offer of
the commissioners, and the matter
was settled on that basis.

HARD ON SHOESTRINGS

WASSAW, Ind., March 31, (UP)—
Walking does not wear out the shoes
of George McClellan, local mail car-
rier nearly so quickly as it does his
shoe strings, he said. His route,
which is 15 miles long, is so covered
with strings he constantly carries a
spare. He spends his nights roller
skating, it was said.

A GREAT GIVER

Read Luke 20:45-21:4. Text, Luke
21:3.) This poor widow has cast
in more than they all.

Did the poor widow know of
Jesus' commendation? Probably
not. Probably she was unaware of
the sacrificial grandeur of her
giving. What she did know was
that she had done her best, and
doubtless she went her way hap-
pier than those who had given
easily of their abundance. It is
their cost that puts the value on
all our offerings. Our great
givers are not the rich who give
thousands and millions which
they do not need and never miss;
they are the poor, who deprive
themselves of comforts in order
to give their small sums. When
we consider its resources many a
little, struggling church puts to
shame the rich churches of the
cities. The devoted generosity of
the poor is the richest asset of
the kingdom.

Prayer: Our heavenly father,
who has prospered us and given
us abundance, show us the beauty
of sacrifice, that we do not cor-
rupt our joy by keeping for our-
selves that which we owe to thee.
Amen.

DOPE PEDDLER PUT "ON SPOT" BY GANGSTERS

SHOT DOWN BY GUNMEN AT BUSY CHICAGO STREET CORNER

VICTIM HAD POLICE RECORD

Max Tendler Was Police Character In New York and Chicago For Many Years

CHICAGO, March 31, (UP)—Max
Tendler, 42, a police character, in New
York and Chicago, was killed last
night by two gunmen who shot him
down as he was buying a newspaper
at a crowded street corner in the busy
uptown district, 45 blocks outside the
loop.

Tendler had been arrested here sev-
eral times and faced arraignment in
Federal court April 27 on a charge of
passing narcotics.

It was said he formerly was a police
captain in New York and played
an important part in convicting Gyp
the Blood, Lefty Louis and police
lieut. Becker for the murder of Her-
man Rosenthal, New York gambler.

Tendler's widow, Bernadine, said
her husband had not worked recently,
but that until a few weeks ago he was
a jewelry salesman. She said she
knows of no reason why gangsters
should kill him.

The killing was reminiscent of the
sensational slaying of Tony Lombardo
gang chieftain, in the loop.

Several thousand persons were leav-
ing two nearby theaters as Tendler
stepped to the newsstand. The inter-
section was packed with humanity for
several hundred feet in each direction.
Two men edged their way through the
crowd.

As Tendler put out his hand to ac-
cept his change, the men pressed re-
volvers against him and began firing.
Two bullets entered his head. Three
entered his body. He died within a
few minutes. The killers escaped
easily through the crowds.

Police said they believed Tendler
had been associated with a gang of
kidnappers who had collected thou-
sands of dollars in ransom from gam-
blers and bootleggers.

CHECK FORGER BEHIND BARS IN RICHMOND

CHICAGO MAN ADMITS FORGER- IES ON LARGE SCALE TO POLICE

RICHMOND, Ind., March 31, (UP)—
Check forgeries on a large scale
have been confessed by Harry E.
Turner, Chicago, police said. He
was arrested after his companion,
John H. Murray, was killed in an auto
accident Saturday night.

Turner boarded a train in Richmond
without reporting the death of his
companion, but was taken from the
train in Logansport and returned
here. He allegedly admitted that he
and Murray conducted forgery opera-
tions in Ohio on a pretentious scale.

In 1924 Turner was sentenced in
Muncie, Ind., on a forgery charge. He
said he and Murray had obtained \$265
in Dayton, Ohio, a few hours before
Murray's death, by cashing seven
Third National Bank checks, bearing
the forged signature of Alfred Kim-
mel, Inc., contractors of that city.

Murray, likewise, had served time
in prison, Turner said. He told police
that the bogus checks were printed in
Chicago, but refused to give the name
of the printer.

HOOVER CAN HAVE CANDIDACY IN 1932

WASHINGTON, March 31 (UP)—
The Republican National convention
may be carried virtually to President
Hoover's doorstep in San Francisco
next year, it was learned today.

An understanding exists among
prominent Republicans that the home
state of the chief executive is to be
given the advantage when the Na-
tional committee assemblies here in
December to make the choice.

The agreement grows out of negoti-
ations in the committee in 1928. At
that time there were three cities
ardently contesting for the opportu-
nity of playing host to the Republi-
cans—Kansas City, San Francisco
and Detroit. The Michigan City was
eliminated because of proximity to
anti-prohibition territory, and San
Francisco finally acquiesced in the
selection of Kansas City with the un-
derstanding that it was to have its
turn in '32.

Prominent California Republicans
are understood to be at work already
in hopes of seeing the agreement car-
ried out.

The political situation was such in
1928 that the selection of a mid-
western city seemed advisable. At this
early time, there is as yet no neces-
sity which would make any other
place more alluring than the Pacific
Coast Metropolis, according to those
who will have charge of the selection.

If Mr. Hoover is to be renominated
no more ideal spot could be chosen,
these authorities maintain. The Presi-
dent is California's "Favorite Son."
His voting residence is 30 miles
south of San Francisco, on the Stan-
ford University campus at Palo Alto.

The particular possibility that
might frustrate arrangements lies in
the chance that there may be a con-
test over the nomination. Should any
of the divergent elements in the party
accumulate strength enough to make
a vigorous fight out of the convention
a moment might develop in favor of
a more centrally located place. Many
delegates would be unable to pay the
large costs entailed by a trip to the
coast. The cost element would not,
however, be important in a cut and
dried convention.

There is some agitation in Demo-
cratic ranks to bring that convention
also to San Francisco. Isadore Dock-
weiler, prominent California Demo-
crat was here recently placing his
demands before the powers of his
party.

GIRL KIDNAPED AND

ROBBED 90 CENTS
SULLIVAN, Ind., March 31—(UP)—Search was being conducted here today for two men who kidnapped 14 year old Mildred Mulford, while enroute to school yesterday afternoon and left her tied to a wooden seat in a grand stand after robbing her of 90 cents.

The girl freed herself from her bonds and walked to a filling station with her hands still tied six hours later. She was unharmed. No motive for the kidnapping was known, since she had only 90 cents which the two men took.

According to the girl, she was re-

turning to school shortly before one o'clock yesterday afternoon when two men in a sedan forced her to accompany them. They drove to the race track where they engaged in some kind of an argument, subject nor cause of which she did not understand. After their departure she began working with the bonds that held her fast to the wooden seat and finally managed to make her way to the filling station, where her hands were untied and she was returned to her home.

A search was begun for her after she had failed to return home from school at the usual time.

Not because we are selfishly inclined and desire all the EASTER business in the city.

We simply say that your next thought should be CANNON'S for then you could dispel all thoughts of fashion, fit, value and price from your mind and have nothing else to worry about except the weather.

PURDUE NOTES
LAFAYETTE, Ind., Mar 31 (UP)—Figures on the number of workers replaced annually by machinery are being gathered by Purdue university under the auspices of the American Engineering council.

"We expect to convert the highway of business into one where the cycles of prosperity and depression will be small bumps instead of peaks and valleys," L. W. Wallace, executive secretary of the Council and former Purdue professor, said.

Council of Clubs
Held Interesting Meeting

The regular March meeting of the Greencastle Council of Clubs was held in the Scout room of the Methodist Church on Monday afternoon with the president, Mrs. Ernest Stoner, presiding.

The minutes were read and the roll called by the secretary, Miss Mary Case.

Mrs. Gray Potter, chairman of the Benevolence committee, reported that it had been necessary to serve seventy-five families in the past two months. She said the response of the club women to the call for a new supply of food at the public library had been prompt and generous; that the clothing contributed for children of all ages had been carefully distributed. Mrs. Potter reported that large checks from men's organizations had helped the committee through the emergencies brought by the severe weather in March. It is hoped, however, that the worst is over; that with spring at hand and business opening up, the many who have been dependent are going to recover the comfort of helping themselves.

Mrs. O. H. Smith, chairman of the Clean Food committee, reported that Mayor Denman and his police force were co-operating splendidly with those in charge of the Clean Food Movement as sponsored by the Greencastle Council of Clubs.

Since the sidewalk display ordinance requires that all food stuff must be kept at all times within the place of business and covered in a sanitary manner, Mayor Denman says that he will see that the ordinance is enforced not only regarding the sidewalk display but within the stores.

Mrs. Smith reported several possibilities for obtaining a show case to be used by those organizations who are in the habit of holding food markets in Greencastle, and reminded the Council again of the criticism of disinterested citizens, namely, the inconsistency of asking food merchants to observe pure food laws which the women themselves did not observe at their food sales. There was a long discussion as to the solution of this problem. For good reasons no definite action could be taken at this time but the consensus of opinion was that women's organizations holding food sales must display their food under cover and in a sanitary manner or pay the same penalty as that paid by any merchant having food stuff.

A motion was made and carried that Mrs. C. C. Huestis, chairman of Public Health or Mrs. Smith, carry a message to the meeting of the County Federation of Clubs on the following day, asking the cooperation of the women of the entire county in the solution of this problem.

In the further discussion of public health problems the following question was asked concerning the new garbage disposal system:

"Whom are we to call in order that we may have our garbage collected?"

The question was answered by several members who also said that the service rendered by the collectors had been most satisfactory. "Call Dr. James and ask for service. Your garbage will thereafter be collected once or twice a week as it seems necessary."

Mrs. Stoner appointed a nominating committee to prepare for the annual election in May. Mrs. Frank

Jones, Mrs. Lee Williams and Mrs. E. B. Nichols compose the committee.

Native of County
Passes 95th Birthday

Mrs. Nancy Keller, who was born in Putnam county only 20 years after Indiana was admitted to the United States, started the ninety-sixth year of her life Sunday.

She was guest of honor at a small party at the home of her daughter, Mrs. Louis R. Adams, 401 Berkley road, in Indianapolis, with whom she makes her home.

Born on a farm in 1835, Mrs. Keller has seen Indiana grow from a frontier wilderness to a progressive state. She attributes her longevity to the will of God.

Mrs. Keller's philosophy of life is simple, based on Christian teaching and endowed with the wisdom gleaned from nearly a century of existence.

"I do not know why I have lived so long, but I do know it is God's will and I am satisfied," she said.

Her daughter pointed out that Mrs. Keller always has had the best of care, which probably has added years to her life. She had an attack of fever about 18 years ago, but since that time has enjoyed the best of health. She enjoys riding in an automobile.

Mrs. Keller comes of sturdy pioneer stock. She lived on a farm in Putnam county until she was ten years old. The family then moved to Owen county, where she lived until 22 years ago. She spent three years in Terre Haute before going to Indianapolis. She has lived with her daughter since the

POLITICS ADJOURNED

WASHINGTON, March 31 (UP)—
The existing regime in the Republi-
can national committee will be kept
intact for the time being, Republican
Senate leader James E. Watson an-
nounced today after a breakfast con-
ference with President Hoover at the
White House.

Watson said there was general
agreement among party leaders that
politics is adjourned until fall and
that there is no need of political ac-

tivity now.
"Congress adjourned in order that
the country could have a rest," Wat-
son said, standing on the front portico
of the executive mansion. "Why
should we trouble the country now
with politics?"

SEES FOR FIRST TIME

PHILADELPHIA, March 31 (UP)—
Eyes which never saw brought new
sensations and revelations beyond ex-
pression today to Earl Musselman, 22,

whose vision has been made by the
skill of a surgeon's knife. He was born
blind.

The color of flowers and the gen-
eral appearance of human beings now
seem to hold the most attraction for
this youth who knew people and ob-
jects only by sound and touch.

Musselman was born without pupils
in his eyes. Six weeks ago Dr. G. H.
Moore, a specialist on the staff of the
graduate hospital, performed an op-
eration. Yesterday the bandages were
removed.

SECURITY EMPHASIZED

MOSCOW, March 31 (UP)—The
security which Joseph V. Stalin feels
in control of the Soviet Regime and
the government's need for expert
technical leadership were emphasized
today by the return of Alexei Rykov
to the government as Commissar of
Posts and Telegrams.

Rykov was removed from the presi-
dency of the Council of Peoples Com-
missars last December 19th, and from
the powerful Politburo on December
21, due to his "right opposition" ten-
dencies.

The fact that he has not been more
severely punished for opposition to
Stalin and that, after having recanted
his opposition, he was permitted to
return to an official capacity, empha-
sized a significant contrast between
treatment of opposition leaders today
and the harsh measures against the
"left oppositionists" of several years
ago when Leon Trotsky was forced
from a high position in Russia and
driven into exile.

The other members of the left also
either have slunk back or remained
outside the Communist party, but
those of the right, such as Rykov and
Nicholas Bukharin, have staged dig-
nified "comebacks." Rykov, as a mat-
ter of fact, returned to membership
in the Council of People's Commis-
sars to fill a responsible post which
indicates the faith the government
places in his excellent record as an
engineer.

He replaces Nicholas Antipov and
Antipov replaces Andrew Andreyev,
as Commissar of Workers and Peas-
ants Inspection. No significance was
attached to replacement of Andreyev.

COMMITTS SUICIDE

CHICAGO, March 31 (UP)—When
Theodore Mahanke committed suicide
yesterday he left three notes—one to
the police, one to the commander of
the soldiers' home at Milwaukee, and
the other to the wife whom he desert-
ed 17 years ago.

To the commander he explained that
he was a veteran of the Spanish
American and world wars, had never
applied for either a bonus or pension,
and wanted both paid to Mrs. Mahanke,
who lives with their five children at
Sheboygan, Wis.

He asked the police to take his fin-
ger prints to prove by comparison
with government records that he had
been a soldier.

In the letter to his wife, he asked
to be forgiven.

SUGAR REFINERS SUED

WASHINGTON, March 31 (UP)—
Court action of vital interest to ev-
ery individual living in the United
States is pending as a result of suit
filed yesterday by the federal gov-
ernment, asking dissolution of the
sugar institute.

Direct and specific charges of
price-fixing, artificial transportation
charges, blacklisting, and other
alleged violations of the anti-trust
laws were made against the 50 de-
fendants comprising the institute.
The suit, filed by the United States
district attorney in New York, asks
a permanent injunction against the
institute, forbidding the refinery
comprising its membership from
maintaining "a comprehensive scheme
designed to fix uniform and oppres-
sive prices."

The importance of the action may
be visualized when it is recalled that
the United States consumes one-
fourth of the world's sugar produc-
tion, that the cane sugar output is
more than 5,000,000 tons a year, and
that the price of cane sugar ranges
from 1 to 1-1/2 cents higher than
beet sugar.

No beet sugar refiners were nam-
ed in the complaint. One of the
charges is that the cane refiners,
producing 85 per cent of the sugar
consumed in this country, induced
the beet sugar refiners to restrict
their competitive activities, and then
conspired to keep cane prices uni-
formly higher than the price of beet
sugar.

ROAD CONTRACT SIGNED

INDIANAPOLIS, March 31 (UP)—
A contract for paving 4.7 miles on the
new Dunes relief highway, from the
Lake county line to one mile west of
Porter in Porter county, has been
signed, the highway department an-
nounced. Barnes Bros. and Co., of
Gary, will do the work for \$205,975-
71. The pavement is to be 40 feet
wide.

TO HOLD CONFERENCE

WASHINGTON, March 31 (UP)—
Two elderly gentlemen who are dom-
inant figures in world finance, sec-
retary of treasury Mellon and Montagu
Norman, governor of the Bank of
England, will forgo their here soon to
discuss the international economic situ-
ation and art.

The world at large has little inter-
est in what the two gentlemen will
say about art, though both are well-
known as connoisseurs, but their dis-
cussions about such weighty matters
as the gold and silver situation, the
proposed international Bank of Cred-
it, the projected Austro-German tariff
union, and related subjects may have
much to do with the course of future
events.

RITES FOR STORM VICTIMS

LAMAR, Colo., March 31 (UP)—
Business houses and schools of this
district were closed today in mem-
ory of five children who froze to
death when they were snowbound for
33 hours in a stalled school bus dur-
ing one of the worst blizzards in the
history of Colorado.

Joint funeral services for the
children and Carl Miller, the bus driv-
er who died trying to summon aid
for them, were held this afternoon in
the armory at Holly, east of here.
All ministers of the town aided in the
services and the six victims were
buried together.

Physicians said all 15 of the child-
ren who survived will recover. All
suffered frozen hands and feet. The
doctors said no amputations would
be necessary.

X-RAY HELPS WHEAT

VINCENNES, Ind., Mar. 31 (UP)—
X-Ray treated wheat has been pro-
duced here which was expected to
flourish despite the drought, Dr.
James McCoy announced.

"I have 23 experiments underway
at present and investigation shows
that the wheat produces 30 per cent
more roots which enables it to get a
greater amount of water than ordi-
nary wheat," Dr. McCoy said.

The X-Ray treated wheat has been
prepared in half-bushel quantities
and continues to grow during the fall
with great vitality, instead of drying
up and dying, as ordinary wheat, it
was said.

WHEAT ACREAGE DECREASE

WASHINGTON, March 31 (UP)—
The department of agriculture an-
nounced today that the total wheat
acreage indicated for harvest in 1931
shows a decrease of about 3 percent
from last year's acreage. This fig-
ure includes both winter and spring
wheat, allowing for abandonment to
March 1.

The department reported that a
total acreage of wheat indicated for
harvest is 57,441,000 acres, compared
with 59,153,000 acres harvested in
1930. Acreage harvested in 1929 was
61,464,000 acres.

Of the winter wheat acreage sown
this year, farmers reported to the ag-
riculture department that they ex-
pected to harvest about 39,759,000
acres. The reduction in spring wheat
acreage, the report continues, is par-
tly due to a shift to feed crops in the
north central spring wheat states
and partly to a substitution of winter
for spring wheat in the state of Wash-
ington.

Ban Johnson Rites
To Be At Spencer

FOUNDER OF AMERICAN
LEAGUE DIED IN ST. LOUIS.
FUNERAL TOMORROW

Funeral services for Byron Ban-
croft Johnson will be held in the
Christian church Wednesday after-
noon at 2 o'clock, it was announced to-
day with the Rev. Wiley S. Hastings
and the Rev. John Henry officiating.
A Christian church quartette will sing
two numbers, Miss June McKee ac-
companying, and a solo, "Better
Land," by Lloyd Summers with Eliza-
beth Sadler at the organ.

The body arrived in Spencer early
this morning, being brought from
Greencastle in the West and Son fun-
eral car. Phil Ball, president of the
St. Louis Browns accompanied the
body to Spencer, but left immediately
for Cleveland, expecting to arrive at
that place in time to attend the fun-
eral services of Ernest S. Barnard,
late president of the American League
and successor of Ban Johnson.

Yesterday the body of Ban Johnson
lay in state at the mortuary at St.
Louis and hundreds of baseball vet-
erans, friends and associates paid tri-
bute to the founder of the American
League and the man who made base-
ball the American sport. — Spencer

Eight marriage licenses were issued
by the county clerk during March,
records at the office showed Tuesday.

joy "Chicken a la Indiana," the man-
ager of the local plant of Armour
and company here announced. Three
carloads of chickens, part of a ship-
ment of 22½ tons of frozen fowls, left

CHALLENGE TESTIMONY

CHICAGO, March 21, (UP)—
Counsel for Leo V. Brothers, charged
with the murder of Alfred J. Lingle,
opened the St. Louis gunman's de-
fense today by challenging the testi-
mony of state witnesses that Brothers
ran from the subway where the re-
porter was killed.

The defense's second witness, Law-
rence O'Malley, a switchman, testi-
fied that he saw Lingle shot last June
and that Brothers was not the slayer.
O'Malley was the first witness pro-
duced by either side who testified that
he saw the actual shooting.

O'Malley said he saw the slayer fire
the bullet that killed Lingle and saw
him lay down the pistol.

Q—You're absolutely positive the
man who fired the shot was not Leo
V. Brothers? A—Yes, sir.

Q—Did he in any way resemble
Brothers? A—No, not in any way I
know of.

O'Malley said he did not want to
notify the police because "I owned my
own home, made big money and didn't
want to be bothered by any gang-
sters."

On cross-examination by C. Way-
land Brooks, assistant state's attor-
ney, he admitted having known
Piquett for seven or nine years.

The sudden end to the State's case
late yesterday found the defense at-
torneys still debating whether to call
Brothers as their first witness. The
handsome, hollow-eyed defendant was
willing to testify immediately, but it
was probable he would be the last to
be heard.

Tyrell V. Krum, defense attorney,
said several persons who were in or
near the Illinois Central Tunnel when
Lingle was killed would be summon-
ed to testify that Brothers was not
the man who ran out and disappeared
into the Loop crowd.

Other witnesses, including Brothers'
manicurist sweetheart, Mrs.
Betty Cook, will testify later, Krum
said, that Brothers was "miles away,
swarthen in bandages."

The state's evidence was completed
except for the testimony of Dr.
James Whitney Hall, psychiatrist, and
Dr. John McKinlock, physician, re-
garding the mental condition of
Patrolman A. L. Ruthy, who once
identified Frank Foster, North Side
gunman, in connection with the Lingle
murder.

Alfred W. Kelfstrom, trunk buyer,
the last witness, testified that Brothers
was the white-faced young man
found hiding in his store a block from
the subway about five minutes after
Lingle was slain.

Kelfstrom said he did not know of
the slaying, but watched Brothers
closely while he was in the store be-
cause of his strange actions. Brothers
he said, paid him \$5 for a woman's
suitcase, but never called for it.

The salesman said Brothers gave
his name as "Daugherty" and asked
to be conducted to the washroom,
from where he disappeared.

Dr. Calvin W. Goddard, director
of the Northwestern crime detection
school, testified over defense objec-
tions about his microscopic examina-
tion of the bullet which killed Lingle.
He said his tests showed the bullet
had been fired from the "Bulldog"
revolver found at the slain reporter's
side.
